## Newborns

I love babies. They are the be all and end all of our lives and we wouldn't give them up for the world. Before you know it the years have flown by and they are all grown up with children of their own.

I will look to capture the very essence of your children; be it their innocence, mischievousness and curious fascinations with the world around them, I look to bring out their unique personalities.

## PHOTO ALBUMS

I believe in value for money and I know that your special moments can start to get expensive. Due to the cost and charges incurred with the various photo albums available as a rule I do not generally offer photo books and / or albums.

If you are looking for a photobook type album then I do advise all of my clients that it is cheaper to go direct to suppliers such as Photobox, Tesco Photo or Blurb. I do not want to be seen to overcharge clients

for a book or item they may be able to purchase directly themselves and these companies do not offer discounts for photographers to be able to offer this service out in house. I have used these services myself and they are simple, reasonably priced and the quality is very good. All I do like to mention is if you are doing this then please ask call, text or email me and see if I have or am aware of any discount codes available at the time and I will happily gladly pass these on to you, on the house.

In some cases I can offer Photo Albums. I do not offer leather bound ones as the cost can be exponential but I do know of a lovely company who offer simple but beautifully elegant Photo Albums that are dressed with Linen and come in their own case. These are something different and I do advise that these can cost in the region of £150-£200 and in some cases more depending on your requirements. I understand that these can add to the expense of the moment and this is why I believe in being open and honest with all of my clients and advise that I will not be offended should you choose to purchase albums directly yourselves.
